- Relaxation training
- Nightmare rescripting

.....

### About the program

This program is designed for people who are experiencing sleep difficulties or chronic insomnia and would like practical help in learning strategies for addressing these issues.

Patients participate in the Cognitive Behaviour Therapy (CBT) based group program one afternoon per week and are required to keep sleep diaries (supplied) to monitor their sleep throughout the duration of the program, and track changes after the implementation of the skills they learn.

Patients who have been treated for sleep apnoea may also find this program beneficial.

.....

### When is it held?

Once a week, over six weeks. Each session runs for three hours. Light refreshments are provided.

.....

### How to join

Patients interested in attending this program will need to discuss this with their treating Specialist who will assess suitability, and if appropriate, provide a referral to Eden Private Hospital.

.....

### How much does it cost?

Patients are admitted as a day patient and as such, can claim their attendance via their private health fund, DVA, NDIS or Home Care Packages. We ask that patients please discuss their options and confirm any applicable out-of-pocket excess or gap costs directly with Eden Private Hospital.

.....

### Further information and referral details
